

CONTENTS

The Rapid Quantitative Description of the Remaining Oil

LIU Jiyu, PAN Mingxi, DONG Wei, YOU Haili (1)

The Application of Magnetic Guidance Drilling Technology in Shengli Oilfield

CAO Xiangfeng, LIU Qinglong (5)

Research on A Model of Nonlinear Coupled-Vibration of Directional Well Drill String

LIU Shanshan, YAN Tie, BI Xueliang, YU Xiaowen, ZHANG Nan, WANG Yufen (11)

An Improved Splitting Method of Liquid Production Within Thick Reservoir

YU Qiannan, LIU Yikun, SHEN Anqi (18)

Optimizing Drilling Operating Parameters With Real-Time Surveillance and Mitigation System of Downhole Vibration in Deep Wells

CUI Meng, WANG Haige, ZHAO Jinying, CUI Liu, CHEN Zhixue (22)

Research on Injection Capacity of Polymer Flooding in Sublayers in Daqing Oilfield

ZHANG Wenlong, ZHAI Bing, SONG Kaoping, WANG Mei (27)

A Method of Quantitative Evaluation of Diagenetic Reservoir Facies of Tight Gas Reservoirs With Logging Multi-Parameters: A Case Study in Sulige Area, Northern Ordos Basin, China

JING Cheng, PU Chunsheng, SONG Ziqi (33)

Study on Damage Characteristics and Formation Protective Drilling Fluids in Dongying Formation Low Permeability Reservoir of Chengbei Oilfield

SUN Jianxiang, HAN Laiju, JIA Jianghong (38)

Numerical Simulation of Submarine Pipeline Self-Buried on Sediment Seabed

SHAN Dandan, LIU Yanyan, LI Yang (44)

Friction Coefficient Prediction Method for Extended-Reach Well Based on Grey Prediction

FENG Guangtong (51)

Research and Application of the Technology to Increase Viscosity and Viscosity Retention for Polymer Solution Prepared With Oilfield Wastewater

PAN Yongqiang (56)

Application of Support Vector Machine in Friction Coefficient Prediction for Extended-Reach Well

LI Yun (61)

The Research of Water Influx Law for Edge-Bottom Water Heavy Oil Reservoir

REN Wenjia (66)

The Model of Pressure of Surrounding Rock Under Effect of Shear Stress

ZHAO Jinhong (70)
